1. The rejection from the previous office action, paper no. 10, is maintained and incorporated herein by reference.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

3. Claims 11-17,25-37 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Rivonellie et al.

4. Applicant's arguments filed 1/19/02 have been fully considered but they are not persuasive.

5. As to applicant's arguments:

Rivonellie patent does not disclose the use of its systems and methods in the actual treatment of living patients, i.e., does not automatically update a patient's treatment protocol.

To the extent claimed, "wherein the analysis interaction algorithm automatically evaluates and updates a patient's treatment protocol" Rivonellie discloses such (see claims), wherein the patient treatment is evaluated and updated..
